# Our Unique Approach

GPS Educational Services has established a reputation for exceptional service in charter schools across the state. We have been providing schools with careful planning and creative solutions since our inception. GPS is a partner in education, not just a provider.

## What to expect when selecting GPS for tutoring services:

- A comprehensive diagnostic assessment and customized program for each student.
- Coordinators and instructors who are certified teachers, trained in our proprietary instructional system.
- A highly effective student-to-teacher ratio.
- A management system that tracks individual student progress each session and provides easy reporting to administrators, teachers and parents.
- Instructional materials from leading national publishers, which are constantly re-evaluated and correlated to the individual student's needs.
- Participation in your school's activities and culture.
- A history of creating success stories with at-risk youth and underachieving students.
- Integrated RTI framework that meets all federal mandates.

# How our approach works

## Diagnostic Testing

Our highly qualified staff will administer a comprehensive assessment in order to determine each child's ability in reading and math. The child's cognitive skills are also assessed to establish a realistic expectation for students, teachers and parents. Based upon these results, an individualized learning program is developed specifically for each student.

## Skills Development

### Reading-Math-Writing Grades 1-12

Our unique approach to tutoring is designed to develop skills that build confidence and ensure academic success, placing an emphasis on the core areas of reading and math.

## Alignment to State Standards

Our unique approach to tutoring is designed to develop skills that build confidence and ensure academic success. Placing an emphasis on the core areas of reading and math, all instruction is directly tied to the state K-8 Grade Level Content Expectations and High School Content Expectations. Individualized learning plans with an emphasis on enrichment are designed to heighten your child's ability to meet academic challenges and develop a competitive edge.

## Reading

- Word attack skills
- Vocabulary skills and concepts
- Organizational skills
- Generalization skills
- Evaluation skills
- General comprehension

## Math

- Number concepts
- Basic addition and subtraction
- Basic multiplication and division
- Number theory
- Fractions
- Decimals
- Percentages
- Ratios & proportions
- Algebra
- Geometry
- Problem solving

# Preparing for success

## Skills Enrichment

### Advanced Reading-Advanced Math Grades 1-12

Individualized learning plans with an emphasis on enrichment are designed to heighten your child's ability to meet academic challenges and develop a competitive edge.

## Study Strategies Made Easy

### Grades 6-12

Strategies for effective learning are essential skill sets that will help your child to acquire and retain knowledge. Key elements include:

- Organization
- Time Management
- Reading Comprehension
- Note Taking
- Stress Management

## ACT & SAT Prep

### Grades 11-12

ACT and SAT Prep sessions are designed to give your student the tools and confidence needed for success on college entrance exams. This program significantly improves test scores by developing:

- Test Taking Strategies
- Strong Vocabulary Skills
- Application of Critical Reading Skills
- Application of Math Skills
- Powerful Problem Solving Methods

*\*Additionally students have the opportunity to take a full length practice exam before every ACT or SAT session at no additional charge.*
